

Issue(s) to work on in the future

What do I still want to work on?

At this point, do I have any ideas how I will do this?

When do I plan to do it (perhaps add in a reminder on my calendar for six months' time)?

Are there any resources that I need to get hold of to help with this?

Are there any things that might get in the way of me working on this, and how might I overcome these?
