

Your values diagram

Fill in the following four areas in the values diagram below with your key words. You might notice that some of the areas are more important to you than others. Most people find that this is the case.

You might want to make a note of the key words from your most important values area and put it in your purse or pocket or on your phone or computer so you can look at it when you need to. This might be quite often during your everyday life at work, home or when you are out and about.
